

Reflection Probe Holder (RPL-45)

Description:

RPL-45 accommodates our standard 6.1 mm diameter reflection probes. The holder enables the positioning of the probe tip in two angles: 45 degrees for diffuse reflection measurements and 90 degrees (normal to sample) for specular reflection. This assembly is mostly used to facilitate color measurements.

A setscrew is included to mount the probe into position. The RPH-45 is a small device. Its dimensions are only 120 by 50 by 50 millimeters. It's made of black Acrylonitrile butadiene styrene (ABS).
